

How to Find MVI History Folder for Backup/Transferring to new machine

- (1) Click the Start Button/Windows Logo
- (2) Click on (My) Computer
- (3) Open the Local Disk (C:)
- (4) Open the MVI Folder
- (5) Select the History Folder
- (6) Copy the folder to the same location (C:\MVI) on the new machine

Each time you perform a query, the results will be automatically saved to this folder.

Please note that each query is filed according to date and time.

Multi-View Benchmarking recommends that you back up your History folder on a regular basis.

For the Benchmarking Application (BA) installer and installation instructions, click [here](#).
