How to Download the Benchmarking Application (Butterfly)

[Real-View Video Installation Demonstration](#)

1. Go to our website, mvib.net
2. Click on "**Download BA"** on menu bar
3. Click on **Download Version 21.0**
4. Click **Save** (_NOT RUN_)
5. Save to Desktop
   Wait till download is complete, then close window
6. Find icon on your desktop "**BA Install 21**", open it
7. Click **Run**

   Will automatically unzip BA Install 21
8. New icon on desktop that says "**BA Install 21**", open it ***
9. Click to open the file that says, "**Set Up_MVI_Full_21**"
10. Click **Next** in Welcome Window
11. Click **Next** (Will install to folder C:\MVI -- it **must** be installed there)
12. Click **Install** in the Ready to Install Folder, let install run
13. Click **Next** in the VFP9 Run Time Window
14. Choose "**Repair**" (or "_Typical_" if Repair is not listed) in the VFP9 Run Time Window
15. Click **Install** in the VFP9 Run Time Window
16. Click **Finish** in the VFP9 Run Time Window (you will have a slight wait)
17. Click **Next** in the My SQL Connector /ODBC window
18. Choose "**Repair**" (or "_Typical_" if Repair is not listed) Click **Next**
19. Click **Install** My SQL Connector /ODBC window
20. Click **Finish** and close BA install window
21. Click to open the Butterfly Icon on your desktop
    If it will not open, go back to the "BA Install 21" folder on your desktop open it and click on mysql-connector-odbc-3.51.12-32.exe and follow the prompts, then return to the "BA Install 21" folder again and click on VFP9 setup.exe, and follow prompts
22. Click **OK** in Restart program window**.** Enter your name and organization.
    (If this keeps running in a loop, right-click on the Butterfly Icon, click Run as administrator, enter info one more time, this will let the set up continue.)
23. Reopen the BA Butterfly Icon
    You may need to do this twice
24. Enter 4 digit Multi-View ID number and 9 digit Password
25. Click **Get Data** (_at bottom right_)
    There will be a short wait while it counts down and retrieves your data.

At this point you may delete the two installation files from your desktop, just keep the butterfly icon.

*** If you have more than 1 PC to install on, you can just send the unzipped installation folder to each PC instead of downloading from the internet each time. Then just begin the process from this step. ***
